

Semblanza Prof. Eugene Caldon

Dr. Eugene Caldon is currently an Assistant Professor in the Department of Coatings and Polymeric Materials at North Dakota State University (NDSU). He obtained his PhD in Chemical Engineering from the University of the Philippines Diliman and PhD in Chemistry from Mississippi State University. Prior to joining NDSU, he was a post-doctoral research associate at the University of Tennessee at Knoxville and Oak Ridge National Laboratory. His research interests include corrosion science, electrochemistry and surface chemistry, adhesion science, additive manufacturing, polymer nanocomposites, fluoropolymers, elastomer-modified thermosets, thin films, biobased materials, and stimuli-responsive and super liquid-repellent coatings.

Visiting Professor at CWRU (2019-2020)

Councilor of the Pacific Polymer Federation (2017 ~)
